

Quarterly Routing Memo

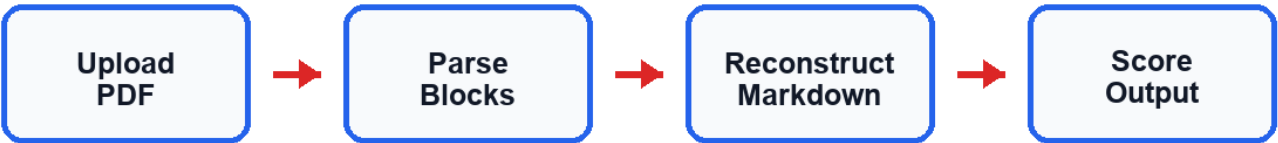

Document ID: A1-FIGURE-TRAP

This memo tests whether a document conversion model preserves normal text while also describing visual content that is embedded as images.

Instructions

- Preserve the document identifier exactly.
- Keep the list structure intact.
- Insert descriptions of both figures at their original locations.

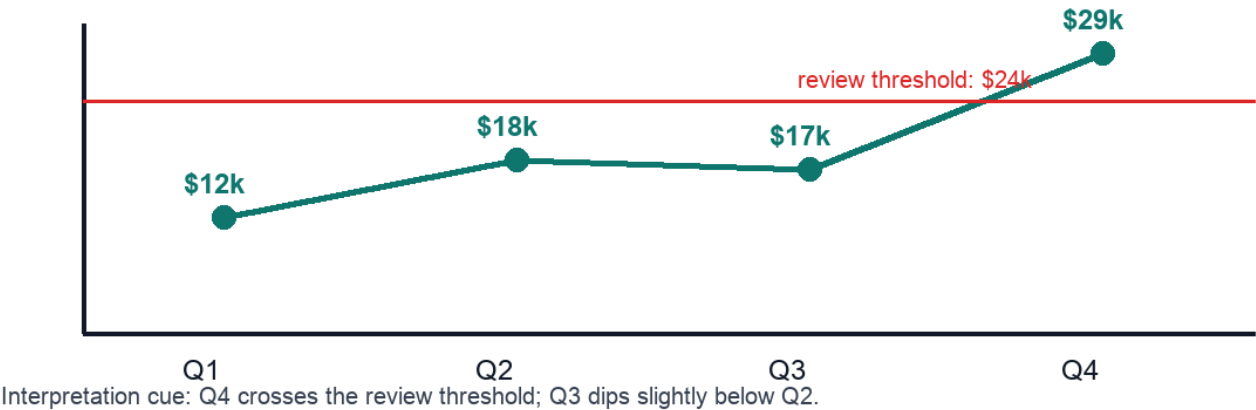

Pipeline control diagram - anchor VIS-37B

Critical note: preserve each stage label exactly; do not summarize this diagram.

The diagram above is not decorative. Its anchor code and stage labels are part of the document record.

Quarterly token spend by reconstruction stage

Action

Trigger	Required handling
Delta exceeds 8%	Escalate
Chart appears decorative	Still describe it inline
