

Visual Exception Register

Document ID: B2-MATRIX-DENSE

This register tests whether a document conversion model can reconstruct a compact embedded inspection matrix without confusing visually similar labels.

Review Rules

- Preserve row identifiers exactly.
- Keep owner names, statuses, severities, and deadlines attached to the correct row.
- Describe the routing note after the matrix.

Inspection panel - matrix KITE-204

Read each row independently. Similar names are intentional.

Row	Exception	Owner	Severity	Status	Deadline
A-17	Alpha valve	Mira Chen	High	OPEN	Apr-17
A-71	Alpha value	Noor Iqbal	Low	CLOSED	May-03
G-17	Gamma valve	Vale Ortiz	Medium	BLOCKED	Jun-11
B-19	Beta gasket	Mira Chen	High	OPEN	Jul-02

Legend: OPEN escalate now CLOSED archive BLOCKED needs review

Routing note: B-19 and A-17 are both high severity but only B-19 is already in R4 final queue.

Action

Escalate A-17 and B-19. Review G-17. Archive A-71.
