

Capacity Planning Snapshot

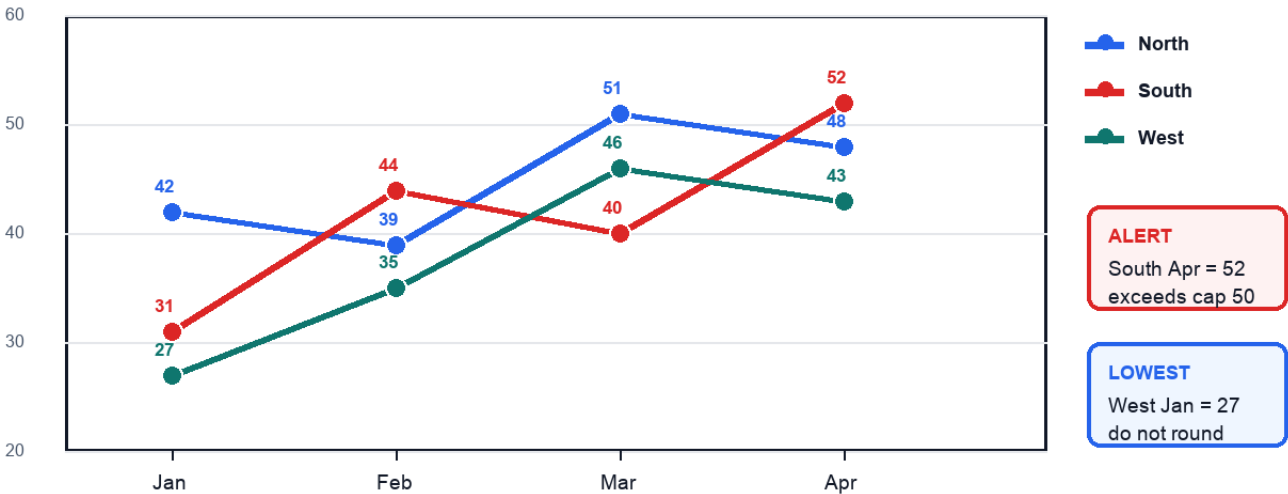

Document ID: E5-CHART-VALUES

This snapshot tests whether a document conversion model can reconstruct exact values from a multi-series visual chart.

Dashboard

Capacity dashboard - CHART-52

Values are in thousands of requests. Preserve each series separately.

Monthly totals: Jan 100, Feb 118, Mar 137, Apr 143.

Note: South is not always highest; North leads in Jan and Mar.

Action

Escalate South Apr 52 because it exceeds cap 50. Keep West Jan as 27.
