

Table 2. Ablation Results

Caption: Accuracy and calibration error across reconstruction variants.

Variant	Encoder	OCR source	F1 (%)	ECE (%)	Notes
A0	ViT-B	native text	84.2	7.1	baseline
A1	ViT-L	native text	87.9	5.8	larger encoder
A2	ViT-L	raster only	81.3	9.4	no text layer
A3	ViT-L	hybrid	89.1	4.9	best overall

Symbols: ECE means expected calibration error. The dagger marker indicates $p < 0.05$.

Finding: A3 hybrid has the highest F1 and lowest ECE.

Footnote: Native text is unavailable for scanned documents.
