

Monitoring visit authorization and source inventory

Controlled working packet | Review window 08-09 May 2026

SOURCE REVIEW AUTHORIZED

AUTHORIZATION

Control field	Recorded value
Protocol	HTX-204 / Amendment 6 dated 18 Mar 2026
Site	014 - Harbor Endocrine Research Center
Principal investigator	Dr. Neha Rao (NR)
Clinical research associate	Lina Sen (LS)
On-site window	08 May 2026 08:30 through 09 May 2026 16:30
Data cut	06 May 2026 at 18:00 local
Review scope	Consent, visits, safety, laboratory, pharmacy, ePRO, deviations, queries

SOURCE MAP

Binder / system	Custodian	Controlled retrieval key	Cutoff basis
Subject source binder	M. Kapoor	SSR-014 / subject tabs	Signed entries through review
Central laboratory portal	Lab interface	NCL-S014 / accession key	Amendments through 09 May
Safety database export	Site safety	SAF-014-0605	Exported 06 May
Data-query console	Data management	DQC-HTX204-014	State at each timestamp
Pharmacy binder	R. Patel	IP-014 / restricted vault	Physical count 08 May
Monitoring workpapers	L. Sen	MV03-WP / signed index	Contemporaneous review records

This authorization identifies what may be reviewed and how the controlled repository locates it. It does not determine whether any listed object is resolved; each controlled record retains its own revision, effective timestamp, and approval state.

Screening, randomization, and current disposition

Roster at the 06 May data cut; disposition does not replace later source corrections

Subject	Consent	Randomized	Arm	Current roster disposition	Key locator
014-001	03 Apr	No	-	Screen failure / HbA1c 9.1%	SF-01
014-002	05 Apr	Yes	B	Completed W4	V-002
014-003	07 Apr	Yes	A	Active / W2 source correction	V-003
014-004	10 Apr	Yes	B	Withdrawn 24 Apr	ET-004
014-005	12 Apr	Yes	A	Completed W4	V-005
014-006	15 Apr	No	-	Screen failure / eGFR 42	SF-06
014-007	18 Apr	Yes	B	Active / pharmacy restriction	V-007
014-008	20 Apr	Yes	A	Active / lab receipt pending	V-008
014-009	19 Apr	Yes	B	Active / visit-window review	V-009
014-010	23 Apr	No	-	Screen failure / QTc 486 ms	SF-10
014-011	26 Apr	Yes	A	Active / amended lab report	V-011
014-012	28 Apr	Yes	B	Active / waiver W-14	V-012
014-013	29 Apr	Yes	A	Lost to follow-up 05 May	FU-013
014-014	01 May	Yes	A	Active / ePRO retraining	V-014
014-015	02 May	No	-	Screen failure / BP 168/98	SF-15
014-016	04 May	Yes	B	Active / masking review	V-016

Subject identifiers remain stable across visit, safety, laboratory, pharmacy, query, and action records. A roster label is an index state, not a substitute for the signed field-level source.

Visit chronology - enrollment through week 2

Record VIS-014/R1-A | Dates reflect source worksheets, not query-console normalization

Subject	Visit	Planned day	Actual date/time	Kit / device	Worksheet state	Continuation
014-002	V1	Day 1	05 Apr 08:05	K-204-118	Complete	VIS-014/R1-B
014-002	W2	Day 15	19 Apr 08:12	K-204-142	Complete	VIS-014/R1-B
014-003	V1	Day 1	07 Apr 09:10	K-204-121	Complete	W2 below
014-003	W2	Day 15	21 Apr 08:44	K-204-146	Partial; source correction	DQC/014/Q77/F1
014-004	V1	Day 1	10 Apr 10:20	K-204-128	Complete	VIS-014/R1-B
014-005	V1	Day 1	12 Apr 09:32	K-204-132	Complete	VIS-014/R1-B
014-007	V1	Day 1	18 Apr 09:10	K-204-153	Pharmacy source required	IP-DISP-K204153/R5
014-008	V1	Day 1	20 Apr 09:15	K-204-158	Lab receipt pending	NCL-AC77152/R2
014-009	V1	Day 1	19 Apr 10:04	K-204-160	Complete	VIS-014/R1-B
014-011	V1	Day 1	26 Apr 08:52	K-204-171	Repeat chemistry ordered	NCL-AC77152/R2
014-012	V1	Day 1	28 Apr 11:06	K-204-176	Waiver W-14 filed	W-14 / TD-HI-204-R1
014-014	V1	Day 1	01 May 09:40	K-204-184	ePRO setup incomplete	TRN-014014/R1
014-016	V1	Day 1	04 May 07:58	K-204-190	Masking review	DOSE-014016/R2

CONTINUED IN VIS-014/R1-B

The continuation carries later visits and termination records. Do not infer a later visit from an enrollment row when the continuation is absent.

Central laboratory accession and custody register

Interface snapshot plus courier custody; amended analytical values appear later

Shipment	Subject	Specimen	Collected	Courier pickup	Lab receipt	Accession state
SH-204-41	014-002	PK-W2	19 Apr 08:12	19 Apr 16:00	20 Apr 09:02	Accepted
SH-204-45	014-003	PK-W2	21 Apr 08:44	21 Apr 17:35	23 Apr 16:40	Accepted; receipt note
SH-204-46	014-008	Chemistry	20 Apr 09:15	20 Apr 15:55	Not posted	Interface pending
SH-204-47	014-009	PK-W2	06 May 09:04	06 May 10:15	06 May 11:20	Accepted
SH-204-48	014-011	Chemistry	26 Apr 08:52	26 Apr 16:20	27 Apr 10:05	Repeat requested
SH-204-52	014-011	Chemistry repeat	08 May 07:46	08 May 12:05	08 May 15:31	NCL-AC77152/R2
SH-204-49	014-016	Glucose	04 May 07:58	04 May 16:40	05 May 09:44	Safety call linked
SH-204-50	014-014	PK-V1	01 May 09:40	01 May 15:20	02 May 08:55	Accepted
SH-204-53	014-007	Potassium repeat	02 May 09:22	02 May 14:10	03 May 08:40	Final
SH-204-54	014-004	ET chemistry	24 Apr 10:11	24 Apr 15:48	25 Apr 09:26	Accepted

A receipt timestamp proves custody, not the analytical result. Corrected fields remain in NCL-CUST-AC76881/R1 for SH-204-45 and NCL-AC77152/R2 for SH-204-52.

Delegation and consent verification worksheet

Scanned monitoring worksheet | Signatures and applicability states

DELEGATION AND INFORMED CONSENT VERIFICATION

REG-MON-11 / REV 2

HTX-204 | Site 014 | Reviewed by LS on 08 May 2026 10:18

DELEGATION LOG REVIEW

Dr. Neha Rao: principal investigator; delegated consent, eligibility, dose decisions, AE causality, and deviation review from 18 Mar 2026.

Maya Kapoor: lead coordinator; delegated consent discussion, visit procedures, source entry, ePRO training, and query response preparation from 21 Mar 2026.

Ravi Patel: unblinded pharmacist; delegated receipt, temperature review, accountability, quarantine, and destruction from 22 Mar 2026.

Jaya Das: pharmacy witness; delegated independent count and seal verification only. No delegation for disposition decisions.

SUBJECT 014-012 CONSENT TRAIL

Main ICF version 6.0 dated 18 Mar 2026 signed by subject and Maya Kapoor on 28 Apr 2026 at 10:14, before screening procedures at 10:42.

Optional genetic biobank page signed at 10:17. The subject selected decline; no biobank sample identifier was assigned.

Re-consent is not required at this review because version 6.0 is current. Waiver W-14 addresses a translated diary, not the main consent process.

MONITOR ANNOTATION

The applicability marks below are source states. A gray barred box means the workflow was disabled, not that the activity was missing or refused.

RECORDED STATES

☒ Main ICF signed before procedures

☒ Optional genetic biobank declined

☐ Translated main ICF required

☐ Optional genetic biobank accepted

☒ Pregnancy testing workflow

☐ Delegation exception raised

Monitor verification: Lina Sen (LS), 08 May 2026 10:18.

PI acknowledgment: Neha Rao (NR), 08 May 2026 12:06. No correction to consent timestamps requested.

Controlled copy - alterations must retain the prior entry and attribution

Source hierarchy and correction handling

Monitoring work instruction WI-CLIN-17 | Applied field by field

Priority	Source class	Controls when	Does not erase
1	Signed source correction / signed DCF	Identifies field, date, author, reason, and final entry	Original visible entry
2	Signed contemporaneous source form	No later signed correction exists for that field	Separate systems and later events
3	Verified external final report	Report identity and amendment state are established	Earlier report version
4	System audit trail	Timestamped state is reported as of its snapshot	Later signed source
5	Monitoring note	Describes review, lineage, or unresolved evidence	Underlying clinical source
6	Draft email or working tracker	Reported only as draft context	Any signed or verified record

APPLICATION RULES

- 1

Report the original and corrected values when both are visible; label which value controls and preserve authorship and time.
- 2

A checkbox state carries meaning only with its exact label. Checked, unchecked, crossed, and disabled are distinct states.
- 3

A query-console snapshot remains valid evidence of its own timestamp even when a later signed clarification changes the field value.
- 4

A laboratory amendment supersedes the analytical value it identifies; custody timestamps remain independent facts.
- 5

An action due date in a signed CAPA controls over a working-tracker date, while the draft date remains part of the audit trail.
- 6

When no source controls a field, retain the unresolved state instead of choosing the most plausible value.

Visit chronology - week 2 through termination

Record VIS-014/R1-B | Continuation of VIS-014/R1-A

Subject	Visit	Target / window	Actual	Elapsed from V1	State	Linked record

VIS-014/R1-B records the operational window and actual attendance for subject 014-009. Classification is pending here; signed record WIN-014009/R1 carries the adjudicated state.

Subject 014-003 W2 electrocardiogram eCRF

Record ECG-014003-W2/R2 | Supersedes R1 at 22 Apr 2026 14:18

ELECTROCARDIOGRAM eCRF - WEEK 2

eCRF-ECG-W2 / AUDIT COPY

ECG-014003-W2/R2 | Site 014 | Subject 014-003 | Visit date 21 Apr 2026

CONTROLLED RECORD

Revision R2 supersedes ECG-014003-W2/R1 for the performed field and correction rationale. Effective 22 Apr 2026 14:18; the original R1 entry remains visible.

VISIT CONTEXT

Visit worksheet started by coordinator Maya Kapoor at 08:44. Vital signs and blood collection were completed before 09:00. ECG machine asset ECG-2 displayed service code E17. No tracing identifier was generated and no paper tracing is filed for this visit.

FIELD CORRECTION RATIONALE

The original performed entry was copied from the visit template before the coordinator confirmed the device failure. Review on 22 Apr found no tracing in source or device memory.

Correction made without erasure. The reason recorded is equipment unavailable; replacement unit was scheduled for delivery on 23 Apr.

Deviation DEV-014-03 was opened as major. Data query Q-77 was opened for reconciliation with the electronic field.

AUDIT TRAIL

Original entry by MK on 21 Apr 2026 at 09:02. Correction by MK on 22 Apr 2026 at 14:18. Monitor verification by LS on 08 May 2026 at 11:26.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

~~ECG performed: YES~~

Corrected: ECG performed: NO - no tracing acquired [MK 22 Apr 14:18]

RECORDED STATES

☒ ~~ECG performed - Yes (original)~~ VOID

☒ ECG performed - No (corrected)

☐ Tracing attached

☒ Equipment unavailable

☐ Subject refused

☐ PI deviation review completed

Coordinator correction certified by Maya Kapoor (MK), 22 Apr 2026 14:18.

Monitor source verification Lina Sen (LS), 08 May 2026 11:26. PI deviation review remains unsigned on this form.

Controlled copy - alterations must retain the prior entry and attribution

Investigational-product temperature excursion

Record IP-DISP-K204153/R5 | Signed disposition controls over working notes

TEMPERATURE EXCURSION AND KIT DISPOSITION

IP-TEMP-09 / REV 5

IP-DISP-K204153/R5 | Refrigerator RX-2 | Kit K-204-153 | 18 Apr 2026

LOGGER SEQUENCE

09:10 - 8.4 C; audible alarm acknowledged by RP. Kit remained in RX-2 while a quarantine bag was prepared.
10:10 - 9.1 C; K-204-153 placed in red quarantine bag QG-19 and segregated on shelf Q1.
11:10 - 8.8 C; unblinded pharmacist notified sponsor supply contact and retained the kit.
12:10 - 7.8 C; chamber returned within nominal range but product quarantine remained active.
13:05 - 5.2 C; second in-range reading. 13:40 - 4.7 C; stable after service reset.

PRODUCT AND ACCOUNTABILITY CONTEXT

Kit K-204-153 is lot H24C, expiry 31 Jan 2027. Subject assignment 014-007 had been entered in the randomization system, but the kit had not left pharmacy custody.
Pharmacy physical count after segregation was 30 tablets. Sponsor stability response SR-204-19 was received at 13:52 and filed behind this form.

DISPOSITION AUTHORIZATION

Ravi Patel is the authorized unblinded pharmacist. Jaya Das witnessed the segregation and count but did not select the product disposition.
The four states below are mutually exclusive for final disposition. A gray barred state was disabled by the sponsor response.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

~~Return kit to usable stock after two in-range readings~~
Corrected: Do not dose; retain quarantined pending sponsor return instruction [RP 18 Apr 14:02]

RECORDED STATES

- | | |
|--|---|
| ☒ Return to usable stock VOID | ☒ Do not dose |
| ☐ Destroy at site | ☐ Release pending later review |
| ☐ Kit dispensed to subject | ☒ Quarantine label QG-19 attached |

Disposition selected and signed by Ravi Patel (RP), 18 Apr 2026 14:02, after sponsor response SR-204-19.
Segregation and count witnessed by Jaya Das (JD), 18 Apr 2026 14:06. Monitor verification LS, 08 May 2026 14:20.

Protocol deviation chronology and evidence routing

Chronological register | Classification follows signed review where present

Deviation	Subject	Event date	Detected	Issue	Provisional class	Controlling source
DEV-014-02	014-002	19 Apr	20 Apr	Diary page returned late	Minor	Resolved note
DEV-014-03	014-003	21 Apr	22 Apr	W2 ECG source discrepancy	Major	ECG-014003-W2/R2 + DQC/014/Q77/F1
DEV-014-04	014-004	24 Apr	25 Apr	ET lab outside processing target	Minor	Lab receipt
DEV-014-07	014-007	18 Apr	18 Apr	IP storage excursion	Major	IP-DISP-K204153/R5
DEV-014-08	014-009	06 May	07 May	W2 attendance outside listed window	Pending signed class	WIN-014009/R1
DEV-014-09	014-011	27 Apr	28 Apr	Repeat chemistry evidence absent	Major	NCL-AC77152/R2
DEV-014-10	014-014	01 May	04 May	ePRO activation incomplete	Minor	TRN-014014/R1
DEV-014-11	014-016	04 May	05 May	Unblinded detail in site note	Major	PI-DEV-014/R6 + A-204

CHRONOLOGY RULE

Event date, detection date, and signed classification are separate fields. DEV-014-08 remains pending in this register; WIN-014009/R1 carries the signed classification. DEV-014-03 and DEV-014-07 retain their original source corrections after downstream review.

Investigational-product inventory reconciliation

Record IP-COUNT-014-20260508/R1 | Physical count 08 May 14:35

Kit	Subject	Receipt qty	Dispensed qty	Returned qty	Physical balance	Inventory locator / status
K-204-118	014-002	30	30	4	4	RX-2/A1 / reconciled
K-204-142	014-002	30	30	6	6	RX-2/A2 / reconciled
K-204-166	014-002	15	15	2	2	RX-2/B2 / dose-reduction return
K-204-121	014-003	30	30	5	5	RX-2/A1 / reconciled
K-204-146	014-003	30	30	Not returned	0	Subject return outstanding
K-204-153	014-007	30	See source	N/A	30	Q1 / IP-DISP-K204153/R5
K-204-158	014-008	30	30	Pending	0	Subject custody
K-204-160	014-009	30	30	3	3	RX-2/B1 / window query
K-204-171	014-011	30	30	Pending	0	Subject custody / lab follow-up
K-204-176	014-012	30	30	Pending	0	Subject custody
K-204-184	014-014	30	30	0	0	Subject custody / ePRO
K-204-190	014-016	30	30	2	2	RX-2/B2 / masking review

For K-204-153, this count record retains 'See source' for dispensed quantity. Signed record IP-DISP-K204153/R5 determines whether dosing occurred and which disposition controls.

Amended laboratory report and custody continuation

Mixed source: verified report image above, native custody reconciliation below

CENTRAL LABORATORY - AMENDED CHEMISTRY REPORT

NCL-CHM / FINAL AMENDED

Accession AC-77152 | Subject 014-011 | Specimen SH-204-52 | Final amendment 09 May 2026 07:18

ANALYTICAL RESULT

Creatinine: 1.47 mg/dL; flag H; reference interval 0.60-1.30 mg/dL. Collected 08 May 2026 07:46; received 08 May 15:31.
eGFR calculated result: 54 mL/min/1.73 m2; flag L; interpretive threshold greater than or equal to 60.

AMENDMENT REASON

The preliminary creatinine transcription was corrected after instrument-interface reconciliation. Analytical run and specimen identity were unchanged.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

~~Preliminary creatinine 1.74 mg/dL~~
Corrected: Final amended creatinine 1.47 mg/dL [CL 09 May 07:18]

Electronically verified by C. Liu, laboratory director, 09 May 2026 07:18. Report status FINAL AMENDED.

DATA CLARIFICATION FORM Q-77 - SIGNED RESPONSE

DM-DCF-02 / FINAL RESPONSE

DQC/014/Q77/F1 | Site 014 | Subject 014-003 | Field: W2 ECG performed

CONTROLLED RECORD

Final signed response F1 references ECG-014003-W2/R2 and supersedes the unsigned console draft for this field. Author signature time is 09 May 2026 08:42; data-management acceptance is a separate 09:14 event.

QUERY ISSUED BY DATA MANAGEMENT

The 21 Apr eCRF export reported ECG performed while no tracing identifier was transmitted. Confirm the source value and provide the reason for any correction.

Query opened 22 Apr 2026 16:05 by data manager AT. Console snapshot on 06 May still displayed the preparer's draft response.

PRINCIPAL INVESTIGATOR RESPONSE

Source review confirms no ECG was obtained at W2 because the site ECG machine was unavailable. Record the field as not performed. No tracing exists to upload.

The original source selection remains visible on the eCRF. DEV-014-03 remains subject to separate deviation-review completion.

DATA-MANAGEMENT DISPOSITION

Response accepted for field correction on 09 May at 09:14. Query closure awaits upload of this signed DCF to the production eCRF repository.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

~~Draft response: ECG performed; tracing will be uploaded~~

Corrected: Final response: ECG not performed; no tracing exists [NR 09 May 08:42]

Monitor field notes - source review chronology

Contemporaneous narrative by Lina Sen | 08-09 May 2026

08 MAY 2026 08:42 - OPENING AND ACCESS

Met MK in records room. Confirmed the data cut and obtained read-only portal access. The subject binder index matched sixteen screened identifiers. Pharmacy access was delayed until RP completed the morning count; no conclusions were recorded from inventory labels alone.

08 MAY 2026 10:18 - CONSENT AND DELEGATION

Compared the delegation log with the scanned verification worksheet. Roles for NR, MK, RP, and JD were in effect on the relevant dates. The subject 014-012 consent sequence was reviewed directly; applicability marks were treated as marked states rather than inferred omissions.

08 MAY 2026 11:26 - SUBJECT 014-003

Traced the W2 visit from the roster through the visit log, eCRF, query console, and signed clarification route. The exported field and source history did not agree. I retained the console snapshot as evidence of its timestamp and routed final field resolution to the signed DCF.

08 MAY 2026 14:20 - SUBJECT 014-007 PHARMACY CHAIN

Matched the receipt-ledger kit identity to the storage-excursion form and physical-count row. The physical count did not by itself establish disposition. Sponsor response, pharmacist authorization, checkbox state, and segregation witness were reviewed on the controlling form.

09 MAY 2026 08:12 - LABORATORY AMENDMENTS

Reviewed SH-204-52 custody, amended analytical report, and PI acknowledgement. The amendment changed the named analytical field without changing collection or receipt timestamps. SH-204-45 required separate receipt-source review because its portal row did not carry the handwritten correction.

09 MAY 2026 10:40 - DEVIATIONS AND ACTIONS

Checked the deviation chronology against signed reviews. Several tracker entries remained working drafts. Due dates were not copied forward until the signed CAPA source was available. Open-item aging was calculated from the original opened timestamp, not from the latest response.

ePRO retraining source and device-event continuation

Mixed source: signed competency image plus native helpdesk audit trail

ePRO RETRAINING AND COMPETENCY RECORD

ePRO-TRN-07 / REV 4

Subject 014-014 | Device EP-441 | Session 08 May 2026 13:30-13:58

OBSERVED TASKS

Subject logged in with own credentials, entered a practice symptom diary, corrected a mistaken severity before submission, and synchronized while the device was online.

TRAINER NOTE

Initial activation on 01 May failed because the temporary PIN had expired. Training used a replacement PIN generated at 13:24; no proxy entry was performed by site staff.

DRAFT - NOT APPROVED

CAPA-014-02/D2 preserves proposed owners and dates as draft audit history. Approved revision CAPA-014-02/R1 may supersede a named field without altering this timestamped export.

Completion cannot be inferred from vendor contact, a planned call, a pending report, or an opened template. Those phrases describe working activity only.

Courier and laboratory receipt SH-204-45

Scanned custody source | Handwritten decimal correction retained

SPECIMEN COURIER AND LABORATORY RECEIPT

NCL-CUST-08 / AC-76881

Shipment SH-204-45 | Subject 014-003 | PK-W2 | Accession AC-76881

SITE HANDOFF

Specimen collected 21 Apr 2026 at 08:44 into tube PK-303. Tube label matched subject 014-003 and visit W2. Site placed tube in shipper at 16:58.

Courier Apex pickup occurred 21 Apr at 17:35. Airway bill 77194510. External shipper seal S-449 was intact at handoff.

LABORATORY RECEIPT

NCL laboratory received the shipper on 23 Apr 2026 at 16:40. Accession AC-76881 was assigned after identity and volume review.

The receipt clerk initially wrote the probe reading with a misplaced decimal. The contemporaneous logger printout was attached and the entry was corrected before acceptance.

Specimen volume 3.8 mL; no hemolysis; tube and requisition identifiers matched. The delay from collection was retained as a custody exception.

EXCEPTION ROUTING

Custody exception CE-204-12 was opened for elapsed transit. Analytical acceptance was decided separately from the exception's administrative closure.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

Probe temperature at receipt 22.1 C

PRINCIPAL INVESTIGATOR DEVIATION REVIEW

PI-DEV-05 / REV 6

HTX-204 | Site 014 | Review meeting 09 May 2026 10:05-10:32

REVIEW INSTRUCTIONS

A checked Reviewed box confirms the PI reviewed the listed source and classification. An unchecked box means review remains outstanding. A crossed box withdraws the proposed review item. A disabled box means PI review is not applicable.

ITEMS PRESENTED

DEV-014-03 - subject 014-003 W2 ECG source correction; major classification proposed; signed DCF available.

DEV-014-07 - subject 014-007 IP storage excursion; major classification; pharmacy source available.

DEV-014-08 - subject 014-009 visit-window calculation; class awaiting calendar adjudication.

DEV-014-09 - subject 014-011 repeat chemistry evidence; amended report available after the ordinary cut.

DEV-014-10 - subject 014-014 ePRO activation issue; training evidence attached.

DEV-014-11 - subject 014-016 unblinded detail; masking impact assessment not yet attached.

MEETING NOTE

The PI reviewed only the rows marked below. Availability of a linked document does not convert an unchecked review state to complete.

RECORDED STATES

☒ DEV-014-03 reviewed

☐ DEV-014-08 reviewed

☐ DEV-014-10 PI review required

☒ ~~Proposed DEV-014-06 review~~ VOID

☒ DEV-014-07 reviewed

☒ DEV-014-09 reviewed

☐ DEV-014-11 reviewed

☐ All deviations complete

Rows reviewed and signed by Dr. Neha Rao, 09 May 2026 10:32. Monitor witness Lina Sen, 10:33.

DEV-014-08 and DEV-014-11 remain on the action route. DEV-014-10 PI review is not applicable under WI-CLIN-17 section 6.4.

014-004 medication source and coding

Mixed source: signed medication marks plus native coding map

EARLY-TERMINATION MEDICATION RECONCILIATION

CM-ET-04 / SOURCE

Subject 014-004 | Early termination 24 Apr 2026 | AE-014-01 dizziness

MEDICATION SOURCE

Amlodipine 5 mg once daily started 2021; losartan 50 mg once daily started 2023; study drug listed separately in accountability source.

RECONCILIATION NOTE

The coordinator initially marked amlodipine stopped. The PI review found that losartan, not amlodipine, was held for two days during the dizziness assessment. The source correction retains the original mark.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

Amlodipine discontinued 24 Apr

SCOPE LIMITATION

An import disposition establishes only that a named object reached the controlled repository with the recorded integrity result. Imported, staged, and quarantined are distinct states. This audit does not decide which value controls a clinical field, does not close a query or deviation, and does not replace review of the underlying record.

Signed CAPA approval and revised obligations

Record CAPA-014-02/R1 | Effective 09 May 2026 12:18 | Supersedes D2 named fields

CORRECTIVE AND PREVENTIVE ACTION PLAN - FINAL APPROVAL

CAPA-014-02/R1 / FINAL

CAPA-014-02/R1 | Site 014 | Effective 09 May 2026 12:18 | Supersedes D2 named fields

RECORD CONTROL

Approved revision R1 supersedes CAPA-014-02/D2 only for the named owner, due, and evidence fields. Draft D2 remains immutable audit history at its 08 May 16:10 export timestamp.

APPROVED CORRECTIVE ACTIONS

- C-01: MK uploads signed Q-77 DCF and verifies the production field by 10 May 12:00; evidence is repository audit screenshot plus query export.
- C-02: RP obtains the RX-2 calibration certificate by 12 May 17:00; evidence must cover service reset and device serial RX2-441.
- C-03: MK documents three contact attempts for K-204-146 return by 13 May 15:00; evidence is contact log and accountability annotation.
- C-04: MK files the corrected SH-204-45 receipt by 11 May 12:00; evidence is the signed receipt image and CE-204-12 reference.
- C-05: NR documents review of the amended chemistry by 09 May 17:00; evidence is PI acknowledgement in the lab portal.
- C-06: MK attaches the ePRO competency record by 09 May 14:00; evidence is the signed training source and Q-91 audit entry.
- C-07: NR completes the DEV-014-11 masking impact assessment by 11 May 16:00; evidence is signed assessment and Q-93 response.
- C-08: MK uploads the signed Q-86 window calculation by 11 May 12:00; evidence is the adjudication sheet and production calendar note.

PREVENTIVE ACTION

RP adds a weekly refrigerator-certificate availability check to the pharmacy opening log beginning 13 May. MK adds source-precedence review to coordinator refresher training by 20 May.

CHANGE FROM DRAFT

Final review accelerated C-02, C-04, C-07, and C-08 and changed the required evidence. CAPA-014-02/D2 remains audit history and its dates are not completion targets.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

Q-93	014-016	05 May 11:40	4 d 1 h	PI review incomplete	Assessment absent	CAPA C-07
DEV-014-08	014-009	07 May 09:05	2 d 3 h	Window calculation	PI review absent	WIN-014009/R1
CAPA-014-02	Site 014	09 May 12:18	0 d 0 h	Final approval	Assigned / open	A-201 through A-205

INTERPRETATION

Accepted, verified, reviewed, attached, assigned, and closed are not interchangeable. The evidence-state column records the latest demonstrated state. The next-controlled-record column identifies what must still occur; it does not assert that the event has occurred.

Q-77 therefore remains aged from 22 April even after receipt of its signed DCF. CAPA-014-02 is assigned and open at approval, so its age begins on 9 May rather than inheriting the age of every linked issue.

Subject 014-009 visit-window adjudication

Record WIN-014009/R1 | Signed 09 May 2026 11:22 | Supersedes CAL-014009/D0

SIGNED VISIT-WINDOW ADJUDICATIONWIN-014009/R1 / SIGNED

WIN-014009/R1 | Subject 014-009 | Query Q-86 | DEV-014-08

PROTOCOL CALCULATION

WIN-014009/R1 supersedes unsigned CAL-014009/D0 for the classification. V1 on 19 Apr is day 1; W2 target is 03 May and the allowed window is 01 May through 05 May inclusive.

ADJUDICATION

Attendance on 06 May is one day beyond the allowed window. The visit procedures remain usable. The discrepancy is retained as a minor protocol deviation and is not reclassified as missed visit.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

Post-visit action assignment and routing

Selected tail obligations | Assignment does not mean completion

POST-VISIT ACTION ASSIGNMENT

MV-ACT-12 / ISSUED

HTX-204 Site 014 | Issued 09 May 2026 15:48 | Monitor Lina Sen

ASSIGNED EVIDENCE ACTIONS

A-201 / Q-77: MK uploads the signed DCF and production-field audit by 10 May 12:00. Notify data manager AT after upload.

A-202 / K-204-153: RP uploads the RX-2 calibration certificate for device RX2-441 by 12 May 17:00. The certificate must cover the 18 Apr service reset.

A-203 / K-204-146: MK records three subject-return contact attempts and annotates accountability by 13 May 15:00.

A-204 / DEV-014-11: NR signs the masking impact assessment and Q-93 response by 11 May 16:00.

A-205 / Q-86: MK uploads the signed visit-window calculation and verifies the deviation link by 11 May 12:00.

ESCALATION RULE

If A-202 is not evidenced by its deadline, RP calls the sponsor supply line the same day and LS records the escalation in CAPA-014-02. Do not substitute an email saying the vendor was contacted for the certificate itself.

If A-204 is late, site recruitment pauses until the masking impact assessment is signed. This conditional pause is not active at issuance.

014-009	6.0	QTc 444 ms / ECG-1018	Eligible	19 Apr 09:28	Window issue later	Verified 09 May
014-011	6.0	Creatinine 1.22 / NCL-4619	Eligible	26 Apr 08:16	Later amended repeat	Verified 09 May
014-012	6.0	Translated diary / W-14	Eligible	28 Apr 10:55	Waiver affects diary only	Verified 08 May
014-016	6.0	Glucose 94 / NCL-4691	Eligible	04 May 07:31	Masking issue post-dose	Verified 09 May

Eligibility is a decision at the recorded time. Later adverse events, deviations, laboratory amendments, or withdrawal do not retroactively change the signed enrollment decision. The exception column points to distinct evidence without adjudicating it.

The monitor verified each row in the sequence consent signature, criterion measurement, and investigator decision. A later laboratory correction would trigger eligibility reassessment only if it changed a criterion that existed before randomization; no such reassessment is recorded in this register. The W2 ECG discrepancy, K-204-153 excursion, amended repeat chemistry, visit-window deviation, and masking review all arose after their subjects' enrollment decisions and remain separate longitudinal records.

Randomization and masking-access audit

Record RTS-AUD-014016/R1 | Corrected 09 May 2026 15:44

RANDOMIZATION AND MASKING ACCESS AUDIT

RTS-AUD-09 / RESTRICTED

RTS-AUD-014016/R1 | Site 014 | System RTS-204 | Audit through 09 May 2026 16:00

AUTHORIZED ROLES

Ravi Patel has unblinded pharmacy access for receipt, assignment confirmation, accountability, and product disposition. Jaya Das may witness counts but has no code-view permission.

Neha Rao, Maya Kapoor, and Lina Sen remain blinded. Emergency code access requires PI initiation, medical-monitor callback, and a separately generated break certificate.

SUBJECT 014-016 ACCESS SEQUENCE

04 May 08:06 - RP viewed kit K-204-190 assignment to confirm controlled custody after low glucose. Access reason recorded as pharmacy custody check; no treatment code was disclosed to the blinded team.

04 May 18:29 - site note by MK included the phrase unblinded pharmacist consulted. The phrase disclosed a role interaction, not the assigned treatment. Q-93 was opened for masking-impact review.

09 May 15:20 - audit search found no emergency code-break request, no treatment-code display, and no break certificate for subject 014-016.

OTHER RESTRICTED EVENTS

18 Apr 13:52 - RP opened sponsor response SR-204-19 for K-204-153 disposition. 06 Apr 14:26 - RP received shipment PS-778. Neither event exposed a subject treatment assignment to blinded users.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

~~Access classification: emergency unblinding~~

Corrected: Access classification: restricted pharmacy custody check; no treatment code displayed [QA 09 May 15:44]

RECORDED STATES

| ☒ Masking impact review required | ☐ Immediate recruitment pause active |

Restricted audit extracted by system administrator P. Iyer, 09 May 2026 15:20.

QA classification signed by S. Mehta, 09 May 15:44. PI masking assessment remains a separate record.

Laboratory method, units, and report-version register

Analytical metadata is versioned independently from specimen custody

Accession / test	Subject	Method	Units	Report version	Verified value / state	Version note
AC-76881 / PK	014-003	LC-MS/MS M-204.7	ng/mL	Final v1	Accepted	Custody exception separate
NCL-4540 / potassium	014-007	ISE CHM-14	mmol/L	Final v1	4.2	Eligibility specimen
NCL-4592 / potassium	014-007	ISE CHM-14	mmol/L	Final v1	5.8 H	AE trigger
NCL-4627 / potassium	014-007	ISE CHM-14	mmol/L	Final v1	4.6	Repeat resolved
NCL-4568 / HbA1c	014-008	HPLC A1C-9	%	Final v1	8.2	Receipt interface delayed
AC-77152 / creatinine v1	014-011	Enzymatic CRE-3	mg/dL	Preliminary v1	1.74 H	Transcription superseded
AC-77152 / creatinine v2	014-011	Enzymatic CRE-3	mg/dL	Final amended v2	1.47 H	Controls analytical value
AC-77152 / eGFR	014-011	CKD-EPI 2021	mL/min/1.73 m2	Final amended v2	54 L	Derived from amended creatinine
NCL-4691 / glucose	014-016	Hexokinase GLU-6	mg/dL	Final v1	94	Eligibility specimen
SITE-016 / glucose	014-016	Meter GM-22	mg/dL	Source series	62 to 91	Point-of-care; not central lab
NCL-4710 / PK	014-014	LC-MS/MS M-204.7	ng/mL	Final v1	Accepted	No analytical amendment
NCL-4664 / chemistry	014-012	Panel CHM-22	SI mixed	Final v1	Within ranges	Waiver unrelated

A report version can supersede an analytical value while leaving method identity, collection, receipt, and accession custody intact. Point-of-care meter values remain source observations and must not be relabeled as central-laboratory results.

014-014	v6.0 / 01 May	None before cut	Not required	Current	Biobank accepted	ICF-014-V6
014-016	v6.0 / 04 May	Masking review	Not a consent trigger	Current	Biobank declined	ICF-016-V6

Safety-letter acknowledgment, re-consent, optional-component choice, translated-diary accommodation, and study withdrawal are separate states. W-14 addresses diary language support and does not replace or translate the main ICF.

Protocol Amendment 6 implementation ledger

Site activation controls and evidence of implementation before enrollment

Control	Requirement	Owner	Target	Evidence timestamp	Evidence object	Status / exception
A6-01	IRB approval filed	MK	22 Mar	21 Mar 16:44	IRB-204-A6	Complete
A6-02	PI training	NR	24 Mar	23 Mar 09:32	TR-A6-NR	Complete
A6-03	Coordinator training	MK	24 Mar	23 Mar 11:18	TR-A6-MK	Complete
A6-04	Pharmacy manual v4	RP	25 Mar	24 Mar 14:06	PHM-V4-RP	Complete
A6-05	ICF v6.0 release	MK	27 Mar	26 Mar 10:22	ICF-V6-REL	Complete
A6-06	eCRF ECG field update	AT	28 Mar	28 Mar 18:42	ECG-R6-DEP	Complete
A6-07	ePRO build validation	MK	29 Mar	29 Mar 15:05	EPRO-UAT-14	Complete
A6-08	Lab manual acknowledgment	MK	29 Mar	30 Mar 08:14	LABM-V6-MK	1 day late; accepted
A6-09	Delegation update	NR	31 Mar	31 Mar 09:26	DL-014-R6	Complete
A6-10	Screening tools replace	MK	31 Mar	31 Mar 12:40	SCR-A6-PACK	Complete
A6-11	Old consent quarantine	MK	01 Apr	01 Apr 08:18	ICF-V5-Q	Complete
A6-12	Readiness signoff	NR	02 Apr	02 Apr 17:06	SIV-A6-CLOSE	Complete before first consent

The one-day late laboratory-manual acknowledgment is retained as implementation history. Readiness signoff occurred before the first subject consent on 3 April; the late acknowledgment does not imply an unapproved enrollment.

Implementation was evaluated by control, not by a single completion percentage. The eCRF deployment, consent release, delegation update, old-consent quarantine, and readiness signoff each required their own evidence object. A6-08 was accepted as a one-day documentation lateness because the laboratory manual itself was available before screening, while A6-12 remained the gate for enrollment. No row authorizes retroactive substitution of Amendment 5 materials after the 2 April readiness signature.

Safety follow-up communication chronology

Contact attempts, clinical evidence, and medical-review states remain distinct

Event / subject	Timestamp	Channel	Initiator	Clinical content	Resulting state	Next obligation
AE-014-01 initial / 014-004	24 Apr 18:05	Phone	NR	Dizziness improved after withdrawal	Follow-up obtained	Confirm stop date
AE-014-01 resolution / 014-004	27 Apr 09:02	Clinic	MK	Symptoms resolved	Resolution dated 27 Apr	Safety reconciliation
AE-014-03 arrange / 014-007	19 Apr 08:44	Phone	MK	Repeat potassium arranged	Contact complete	Obtain final result
AE-014-03 result / 014-007	03 May 09:18	Portal	MK	Potassium 4.6 mmol/L	Resolved 03 May	Close follow-up
AE-014-04 request / 014-011	28 Apr 09:10	Query	AT	Repeat chemistry requested	Evidence absent	Receive amended report
AE-014-04 review / 014-011	09 May 08:06	Portal	NR	Amended creatinine reviewed	Medical review complete	Close Q-88
AE-014-05 call / 014-016	04 May 18:16	Phone	NR	Glucose 88; no symptoms	Safety call complete	Masking assessment
AE-014-05 day-1 / 014-016	05 May 08:20	Phone	MK	No recurrent symptoms	Day-1 follow-up complete	PI causality review
AE-014-07 / 014-009	04 May 17:26	Phone	MK	Injection-site pain resolved	Resolution confirmed	No further call
AE-014-08 ticket / 014-014	04 May 12:16	Helpdesk	MK	Missed diary entries; PIN expired	Device issue open	Retrain subject
AE-014-08 evidence / 014-014	08 May 14:03	Console	MK	Competency source attached	Evidence attached	Console closure
FU-013 / 014-013	05 May 17:20	Phone/SMS	MK	Third contact attempt unanswered	Lost to follow-up	Certified letter

A completed call does not prove medical review, query closure, or deviation closure. Each row records only the state produced by that event; later source must supply any subsequent transition.

ePRO exception report and diary continuity

ROLE-SPECIFIC TRAINING AND DELEGATION CORRECTION

TR-DLG-12 / CORRECTED

HTX-204 | Site 014 | Review completed 10 May 2026

RAVI PATEL - UNBLINDED PHARMACIST

Protocol Amendment 6 pharmacy module completed 24 Mar 2026 at 14:06. Delegated receipt, temperature review, accountability, quarantine, disposition execution after sponsor instruction, and destruction documentation.

RTS restricted access role PHARM-U granted 24 Mar at 16:18. Annual GCP remains current through 31 Jan 2027.

JAYA DAS - PHARMACY WITNESS

Count-and-seal verification module completed 25 Mar 2026 at 09:14. Delegated independent count, external-seal observation, and witness signature only.

The original worksheet incorrectly included product disposition decision. NR crossed that task on 26 Mar because JD has no sponsor-response review or disposition authority. RTS code-view access is disabled for this role.

MAYA KAPOOR - BLINDED COORDINATOR

Source entry, consent discussion, ePRO training, and query-response preparation completed 23 Mar. No pharmacy disposition or treatment-code access is delegated.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

JD delegated product disposition decision

Corrected: JD delegated witness count and seal verification only; no disposition decision [NR 26 Mar 10:08]

RECORDED STATES

☒ RP pharmacy module complete

☒ JD count-and-seal module complete

☐ JD treatment-code access

☒ RP restricted RTS role active

☒ ~~JD product disposition authority~~ VOID

Investigator safety and dosing decision register

Clinical causality, dosing action, and masking impact are independently reviewed

Review	Subject / event	Source reviewed	PI conclusion	Signed	Operational effect	Separate pending item
DR-01	014-004 / AE-01	ET note + medication source	Related dizziness; resolved 27 Apr	27 Apr 09:24	Study drug withdrawn	Query stop-date reconcile
DR-02	014-007 / AE-03	Potassium 5.8 -> 4.6	Unrelated; resolved 03 May	03 May 10:06	No dose from K-204-153	Calibration evidence
DR-03	014-011 / AE-04	Amended creatinine 1.47	Possible; grade 1	09 May 08:06	Continue follow-up	Q-88 close
DR-04	014-016 / AE-05	Dose sheet + glucose series	Related; grade 2	04 May 18:34	Dose withheld	Masking assessment
DR-05	014-016 / discharge	09:05 observation	Stable for escorted discharge	04 May 09:12	Same-day discharge	18:16 safety call
DR-06	014-003 / ECG	Corrected eCRF + DCF	ECG not performed	09 May 08:42	Field correction	Repository update
DR-07	014-009 / window	Signed calculation	Minor deviation	09 May 11:22	Visit usable	Production upload
DR-08	014-014 / ePRO	Competency + exception	Missing days not backfilled	09 May 10:12	Prospective use	Console closure
DR-09	014-012 / W-14	Consent + waiver	Diary accommodation only	08 May 12:06	Main ICF unchanged	Waiver expiration
DR-10	014-003 / custody	SH-204-45 receipt	Analytical use acceptable	23 Apr 17:10	PK result usable	CE-204-12 closure
DR-11	014-016 / masking	Restricted access audit	Clinical causality unaffected	10 May 10:28	No dose change	Impact assessment unsigned
DR-12	Site 014 / CAPA	Final CAPA-014-02	Actions proportionate	09 May 12:14	Assignments active	Effectiveness check

The masking-review row does not reopen the signed dose decision or causality assessment. It asks whether restricted-role information reached blinded decision-makers. Clinical conclusions and masking impact must therefore remain separate in the reconstruction.

For subject 014-016, the low glucose, rescue carbohydrate, and dose-withheld decision were recorded before the coordinator wrote the restricted-role phrase at 18:29. DR-04 and DR-05 therefore remain clinical decisions supported by contemporaneous measurements, while DR-11 records only that masking impact was still unsigned on 10 May. A later masking conclusion may resolve Q-93 without changing the earlier glucose series, discharge decision, dose action, or AE causality classification.

PROTOCOL WAIVER W-14 - TRANSLATED DIARY ACCOMMODATION

W-14 / FINAL APPROVAL

HTX-204 | Site 014 | Subject 014-012 | Approved 27 Apr 2026

REQUEST AND RATIONALE

The subject can complete the main English informed-consent discussion with interpreter support but requires a sponsor-controlled Hindi diary aid for daily symptom wording. The aid does not add, remove, or reinterpret protocol questions.

Waiver applies only to the paper diary aid issued while certified ePRO Hindi text is unavailable. It does not waive main ICF v6.0, screening criteria, visit windows, safety reporting, or source-signature requirements.

CONTROLS

Use translation TD-HI-204 revision 1, issued as a paired English/Hindi booklet. Coordinator reads the English item identifier before the subject records the Hindi response. Completed pages are transcribed into ePRO by the subject during the next visit with an audit note.

Authorization expires 31 May 2026 or on release of certified ePRO Hindi text, whichever occurs first. Sponsor medical monitor may revoke earlier in writing.

RECORDED STATES

- | | |
|---|---|
| ☐ Main ICF requirement waived | ☒ Translated diary aid authorized |
| ☐ Screening criteria waived | ☐ Visit windows waived |
| ☐ Subject proxy entry authorized | ☒ Paired English/Hindi booklet required |

Requested MK 26 Apr 15:12; approved medical monitor D. Bose 27 Apr 08:48; PI acknowledgment NR 27 Apr 09:06.

Expiration: 31 May 2026 or certified Hindi ePRO release, whichever occurs first.

Translated-diary controlled-copy and transcription log

Waiver W-14 implementation for subject 014-012

Event	Timestamp	Copy / day	English item	Hindi aid state	Actor	Audit result
Issue	28 Apr 11:12	TD-HI-204-014	Paired booklet	Rev 1 sealed	MK	Subject receipt signed
Day 1	28 Apr 20:04	Diary 01	SYM-01 severity	Hindi response 1	014-012	Complete
Day 2	29 Apr 19:42	Diary 02	SYM-01 severity	Hindi response 0	014-012	Complete
Day 3	30 Apr 20:18	Diary 03	SYM-02 nausea	Hindi response 0	014-012	Complete
Day 4	01 May 21:03	Diary 04	SYM-03 dizziness	Hindi response 1	014-012	Complete
Day 5	02 May 20:51	Diary 05	SYM-01 severity	Hindi response 1	014-012	Complete
Day 6	03 May 19:38	Diary 06	SYM-02 nausea	Hindi response 0	014-012	Complete
Day 7	04 May 20:26	Diary 07	SYM-03 dizziness	Hindi response 0	014-012	Complete
Review	05 May 09:20	Diary 01-07	Identifiers matched	No translation change	MK	Ready for subject entry
Subject entry	05 May 09:34	ePRO batch B-14	Seven item IDs	Entered by subject	014-012	Audit note W14 linked
Coordinator check	05 May 09:46	ePRO batch B-14	Values compared	No discrepancy	MK	Verified; no proxy
Copy return	05 May 10:02	TD-HI-204-014	Paired booklet	Rev 1 returned	MK	Vault slot TR-6

Coordinator comparison is verification, not proxy entry. The subject entered all seven item identifiers into ePRO, and the audit note links the paper aid without converting the Hindi responses into a new translation version.

Final masking-impact assessment MA-016

Record MA-016/R1 | Supersedes unsigned D0 | Signed 13 May 2026 15:18

MASKING IMPACT ASSESSMENT MA-016 - FINAL

MA-016/R1 / FINAL SIGNED

MA-016/R1 | Site 014 | Subject 014-016 | Signed 13 May 2026 15:18

RECORD CONTROL

MA-016/R1 supersedes unsigned draft MA-016/D0. R1 became effective with NR's signature at 15:18; QA review at 15:36 and monitor acceptance at 15:44 are separate attributed events.

RECORDS REVIEWED

Reviewed dosing worksheet, timed glucose observations, RTS restricted-access audit, pharmacy access record for kit K-204-190, site note dated 04 May, Q-93 history, and staff role/delegation records.

The blinded note stated that an unblinded pharmacist was consulted. It did not include treatment assignment, kit-arm mapping, RTS code, or product identity. RP's RTS session was limited to controlled-custody confirmation.

IMPACT CONCLUSION

No emergency code break occurred and no treatment code was displayed to NR, MK, LS, or the subject. The phrase disclosed a restricted-role interaction but did not reveal treatment. Clinical dosing and AE causality decisions were based on glucose and symptoms before the note was written.

Masking impact is assessed as none. No data exclusion, dose reassessment, or recruitment pause is required. Site coaching is required to avoid naming restricted roles in blinded notes.

ADMINISTRATIVE DISPOSITION

Q-93 response may be closed after this signed assessment is uploaded and the coaching acknowledgment is attached. Assessment completion does not itself perform console closure.

CORRECTION HISTORY - ORIGINAL ENTRY REMAINS VISIBLE

~~Typed original MA-016/D0 conclusion: masking impact pending; author signature absent~~

Corrected: MA-016/R1 conclusion: no masking impact; blinded-note coaching required [NR 13 May 15:18 / QA 15:36 / LS 15:44]
